

A Busy Day (Simple Past and Relative Pronouns)

Read the text and answer the questions.

Yesterday was a very busy day for me. In the morning, I woke up early because I had to finish my homework. I was a bit tired, but I quickly completed the assignment **that** was due today. After finishing my homework, I had breakfast. I ate some toast and drank orange juice. Then, I went to the park **where** I usually go on weekends.

At the park, I met my friend Sarah, **who** lives near my house. She is the person **who** I always play soccer with. We played soccer for about two hours, and then we sat down to rest. While we were resting, we saw some children playing with a dog. The dog **which** they had was very playful. It was a sunny day, and there were many people at the park.

After spending time at the park, I went home and helped my mom cook lunch. We made spaghetti, **which** is my favorite meal. My dad also helped, and we had a nice lunch together. In the afternoon, I read a book **which** I borrowed from the library. It was a mystery novel, and I really enjoyed it. Later, I watched a movie with my family. It was a fun and relaxing evening!

Questions:

1. Why did the person wake up early yesterday?
2. Who is Sarah and what do they do together?
3. How long did they play soccer at the park?
4. What did the person do after going home from the park?
5. Find and circle the **relative pronouns** in the text.
